cava

With their vivid colours and unique ecosystem, the Bauxite caves are one of the great natural spectacles of Apulia and a source of inspiration for a collection which boasts an extremely visually striking system of modular sectional seats. A system which hinges on the constant aesthetic and functional transformations of its various parts.

features

by Mauro Lipparini

Perfect for any living-room space, with its modular elements which can be positioned at will (even independently) as they are upholstered on each side. Its decorative profile and solid-wood base are design details which place this sofa firmly at the heart of any space it is used in. Cava can be used to create an almost infinite number of compositions in a mixture of leather and fabric seat modules, with various different mechanisms in the same combination. The sofa can be customised by combining the upholstered seats with wooden table tops in various different shapes and sizes.

Padding

The seat cushions have all of the comfort and quality of polyurethane and Memory-Foam padding, which ensure that its good looks and support are long-lasting.

Relax functions

Each module will have one of two mechanisms available - a manual flip mechanism moves the backrest from a vertical to a horizontal position, while the electric sliding mechanism moves the back and armrest back and forth.

The seats are supported by a tubular solid-wood base in a ash-wood tobacco-brown finish combined with a metal coffee finish (with anti-scratch foot liners).

Here are some suggested arrangements.

Mauro Lipparini An eclectic architect and designer, who knows how to express his creativity in all areas: complex industrial projects, interior architecture, installations, product studies. As one of the leading exponents of "Italian minimalism", he is acclaimed around the world, and has received numerous awards, confirming his exceptional talent. He graduated in Florence in 1980 and chose Italy as his ideal venue for work and research.
