Harmony project

Natuzzi Italia

The Harmony Project aims to offer a unified working method that ensures chromatic and stylistic harmony, preserving the brand's DNA.

This tool is intended to be more than just a product offering, aiming to harmonize an entire interior design project.

Memoria

Memoria was born from the shared vision of Karim Rashid and Pasquale Natuzzi to create a project characterized by a “transitional” design, with soft, contemporary forms that simultaneously evoke past ergonomics. Originally conceived by the designer, the project was refined, curated, and developed through synergy with the internal Design Center, resulting in an iconic collection that represents the Natuzzi style.

Design by Karim Rashid

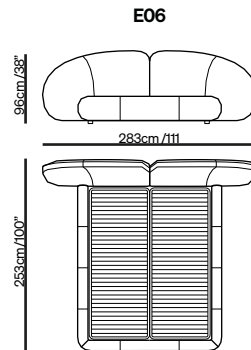

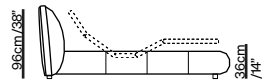

Karim Rashid is one of the most unique voices in design today. With over 4,000 projects in production, Karim’s ability to go beyond the ordinary continues to make him a prominent figure among the designers of his generation.

Moodboard earth tone

To bring harmony to the projects, the Natuzzi Style Center carefully selects materials and coverings, creating a dialogue between them. In this case, the Siena Leather in Deep Camel has been paired with Settecoggi Fabric in Rose beige. The harmonization of these coverings with woods and marbles will give rise to the moodboard that will define the final total look of the project.

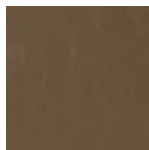

Moodboard earth tone

Along with the moodboard of coverings and materials, the Natuzzi Style Center harmonizes the bedroom with furniture and accessories to complete the interior design project.
